

MANAGED SPILL KIT SYSTEMS

PREPARE YOUR WORKPLACE FOR DANGEROUS AND TOXIC SPILLS

CAN YOU LOCATE YOUR SPILL KIT?

DO YOU KNOW WHAT IS INSIDE YOUR SPILL KIT?

- ✓ Three standard sizes
- ✓ Wall-mounted
- ✓ Unique viewing windows ensuring stock is available at all times
- ✓ All kits contain absorbent materials, PPE and disposal bags
- ✓ Customised 'grab and go' items
- ✓ Fully stocked and refurbished at each ALSCO service
- ✓ ALSCO Managed Spill Kit Systems meet Resource Management Act Guidelines*

YOUR COMPLIANCE OBLIGATIONS:

* The RMA (Resource Management Act 1991) and subsequent environmental court rulings confirm three important points:

1. Companies and individuals are legally responsible for dealing with any foreseeable incidents that may occur while carrying out their activities. They have a legal duty to avoid, remedy or mitigate any harm to the environment resulting in their activity.
2. If daily activities include the use, storage or transport of any substance capable of causing environmental harm, it is foreseeable that a spill of that substance will occur at some time.
3. If companies and individuals can demonstrate that they were adequately prepared to deal with a spill and took all reasonable steps to clean up following an incident to minimise any harm to the environment, they are less likely to be punished by the court.

For more information go to <http://www.legislation.govt.nz/act/public/1991>

ALSCO Managed Spill Kit Systems

- ✓ Kits are fully maintained for a flat monthly fee. At each ALSCO service the Spill Kit is completely checked and restocked.
- ✓ We maintain content readiness with quality Absorb-X® Spill Pads, Spill Containment Socks, Spill Cushions and Spill Particulate.
- ✓ Modules, PPE (gloves, apron, safety glasses), a brush/tray set and disposal bag feature in all kits.
- ✓ Each service is recorded with a date and signature on a service sticker inside the door of each cabinet, and is tracked in our system.
- ✓ Complementary services include a Site Spill Kit survey (to establish where on site kits should be located), and an assessment of your current kits/products to establish their suitability.
- ✓ Staff training can be arranged.

Absorb-X® Organic products that work!

Absorb-X features a non-leaching organic fibre, biodegradable and self-regenerating in its natural state. An extremely effective, lightweight, environmentally-friendly oil and chemical absorbent.

1. Spill Hazard
