

Hand Care Soap

PERFUMED FLOWING HAND SOAP

Fresh & Clean Hand Care Soap produces a smooth, soft and creamy lather that cleans hands well and keeps them moist and supple. It is a powerful cleaner, yet soft on the hands. It also has skin conditioning properties, and anti-bacterial agents.

Hand Care Soap is the ideal "general" hand care product where a fragranced, coloured product requires the added benefit of an antibacterial agent.

Main Features & Benefits:

- Pink colour for easy identification
- Distinctive fragrance leaving hands fresh and clean
- Antibacterial agents to assist responsible hand hygiene
- Thickened formulation for minimising wastage and over-use
- NZFSA Approved

DIRECTIONS:

Apply a small quantity onto hands directly from the dispenser. Rub hands together for a smooth lather and rinse off. Repeat if required. Research shows the best anti-bacterial action results from hands being lathered and rinsed for at least 20 seconds. Wet hands should be properly dried to prevent cross-contamination.
