

Scale & Lime

HEAVY DUTY ACID CLEANER/SANITISER

Fresh & Clean Scale & Lime is a heavy duty phosphoric based low-foaming acid/detergent/sanitizer for removal of dissolved solids and alkaline residues from coffee, hopper and associated surfaces, coffee pots, sinks, plug holes, and many other surfaces. **Scale & Lime** also removes surface rusting from ferrous metals and protects against subsequent re-rusting.

Main Features & Benefits:

- Ultra-concentrated for the really tough de-scaling jobs
- Specialist de-scaling agents for rapid penetration
- Antibacterial agents to assist bacterial control
- Biodegradable for a cleaner environment

DIRECTIONS:

Dilution rates for CIP applications vary depending on soiling levels. 1% to 10% dilution rate will suit most applications. Increase dilution if required. Circulate for 15-20 minutes. Ensure all surfaces are thoroughly rinsed. For surface cleaning, dilute from a 1-20% solution depending on soiling levels. Spray or pour onto surfaces. Leave for 2 minutes, then scrub (if required) and rinse. For spray n wipe applications a 5-10% solution should suit most applications, although stronger solutions may yield faster results. Please refer to label and treat with caution. See precaution panel on label. Avoid inhalation and skin contact.
